ABOUT US

Jaindi Exports Pvt Ltd manufacture & supply processed coconut based products in the form of bulks to international wholesale buyers and some small percentage to direct consumer markets in developed countries. As sustainability oriented organization, we ensure all our products are 100% organically sourced, processed, produced and packaged protection the nutritional compositions of the original coconuts & spices. And we heavily emphasize the value of fair trade for the businesses, communities and the consumers alike in the long run. Thus, we have integrated fair trade as the main policy of the company which would yield multi-dimensional value to everybody involved.

The premium quality of our products has been tested and certified by the international food quality controlling & standardizing bodies such as BCR, ISO 22000:2005, GMP, HACCP, KOSHER and HALAL.

ORGANIC COCONUT MILK POWDER

Organic Coconut milk powder is a white fine creamy powder made from coconut cream extracted from Sri Lankan coconut and spray dried to form water-soluble powder. It contains characteristic exotic flavor and aroma of fresh coconuts, and is free from rancid, cheesy or other objectionable flavors and odors.

INGREDIENTS:

Organic Coconut and Organic Maltodextrin

INTENDED USE:

Use in curries, salads, etc.

PRODUCT CHARACTERISTICS

Appearance : White or creamy fine powder without brown scorched particles

Odor : Characteristic, aromatic for coconut, without foreign odor

Taste : Characteristic, aromatic for coconut, creamy and without foreign tastes

SHELF LIFE:

Shelf life is eighteen (18) months when unopened

STORAGE:

Store product in a room temperature (28°C-32°C), transport product under similar conditions. It hardens upon exposure to lower temperature but returns to its original powder form when re-exposed to warm temperatures (28°C to 26°C). Shelf life is eighteen (18) months when unopened. Once open keep in an air tight container or packages.

ORGANIC COCONUT VINEGAR

Coconut water vinegar is made by 2 distinct biological processes, both the results of the action of microorganisms that turn carbohydrates into acetic acid. This is produced by using coconut water and it is low in acidity.

INGREDIENTS:

Organic Coconut Water, Sugar

INTENDED USE:

Serves as an ideal seasoning compound which renders tempting flavor and aroma. It's an antifungal agent and a good preservative and can be used in salads, pickles, chutneys and many other dishes

SHELF LIFE:

3 years from the date of manufacture

STORAGE:

Store in clean, cool dry place. Keep away from direct sunlight. After opening, the lid must be closed properly.

CEYLON BLACK TEA

One of the most celebrated drinks in the world, since its first consignment arrived at the London Tea Exchange in 1873, Ceylon Black Tea has been the lifeline of Sri Lankan exports and trade. One of the top 5 tea producing countries in the world, Sri Lanka satisfy over 11% of the global demand for tea and is one of the largest exporters of handpicked orthodox tea to the global market.

Despite Sri Lanka's adoption of other varieties of Ceylon Black Tea continues to be a specialty. Rich with a flavor and goodness unique to the varying terroir of Sri Lanka's tea-growing regions, Ceylon Black Tea is scientifically proven to have a unique composition of Flavone's. These flavones are responsible for the crisp citrus aroma unique to Ceylon Black Tea as well as the multitude of health benefits, it offers.

CEYLON GREEN TEA

Although Ceylon Tea has long been synonymous with premium quality black tea since its introduction to the global markets in the 19th Century, Ceylon Green Tea, made from hand-picked buds and leaves mainly grown in the Uva and Nuwara Eliya regions of Sri Lanka.

While there had been numerous experiments in producing Ceylon Green Tea since the 19th Century using Chinese seedlings the first batch of Ceylon Green Tea was exported only in 1982, Today the majority of green tea from Sri Lanka is produced using Assamese stocks mainly in the Uva region of Sri Lanka, which gives the tea a fuller body and a more pungent, malty, and nutty flavor.

Unlike with Ceylon Black Tea, Sri Lanka serves only 3% of the global demand for green tea, exporting mainly to the USA, Australia, and Russia. As Ceylon Green Tea is an acquired taste, there is a growing demand for the tea from Western and Eastern Asian countries as well as African and South American countries.

Meanwhile, the Ceylon Tea has lately been adopting Chinese, Indonesian, Japanese and Brazilian seedlings in producing Ceylon Green Tea expanding its cultivation to the Nuwara Eliya region with its rugged mountains and colder climate.

These varieties of Ceylon Green Tea have a very light and sparkling bright yellow color and a more delicate, sweet flavor mostly associated with green teas around the world. Despite their different flavors and varieties, Ceylon Green Tea offers a multitude of health benefits that are proven by

SPICED TEA

In addition to the celebrated ginger, cinnamon flavored teas and Ceylon Masala Chai, Sri Lankan tea manufacturers produce a range of innovative spiced tea flavors that combine the flavor of Ceylon Spices and Ceylon Tea in a single sip of tea. Among them is the clove flavored black tea, cardamom flavored black tea, black tea with turmeric, and combined spice flavors.

PRODUCT OF SRI LANKA

GINGER TEA

GINGER FLAVOURED BLACK TEA

One of the all-time favorite black teas locally and globally ginger flavored black tea combines two of Asia's most popular flavors; black tea and ginger. Aromatically pungent and flavorful with the heat of spice, ginger black tea is one of the refreshing versions of the world's favorite beverage and provides the combined benefits of ginger and Ceylon Black Tea.

PRODUCT OF SRI LANKA.

CINNAMON TEA

CINNAMON FLAVOURED BLACK TEA

A combination of Sri Lanka's leading spice with the country's favorite tea, cinnamon flavored black tea is a mixture of Ceylon Cinnamon with Ceylon Black Tea. Flavored using Ceylon Cinnamon essential oil or Ceylon Cinnamon powder, cinnamon flavored black tea combined the health benefits of Ceylon Black Tea and Ceylon Cinnamon.

PRODUCT OF SRI LANKA.

FRUIT FLAVOURED TEA

As we are the Ceylon Tea makers have combined the tropical fruits found in Sri Lanka with Ceylon Tea varieties to create a range of delicious fruit flavored teas that are celebrated around the world.

Wild forest tea
Black currant flavour
Raspberry flavour
Strawberry flavour

PRODUCT OF SRI LANKA.

EARL GRAY TEA

Ceylon Earl Grey Tea is a fusion of rich strong-bodied Ceylon Black Tea and bergamot oil. A tea blend that compliments the natural citrus aroma and crisp flavor of Ceylon Tea.

While Ceylon Black Tea is available in a multitude of flavors, Ceylon Earl Grey Tea could be the most popular tea of them all.

Although created originally in the 19th Century in England to mask the flavor of cheap tea and to pass it off as an expensive tea, Ceylon Earl Grey tea from Sri Lanka is produced by combining rich and full-bodied Ceylon Single Origin Tea with Bergamot Oil. Although Earl Grey is a flavor generally associated with black tea, tea makers also manufacture Earl Grey Green Tea to cater to the rising market demand.

PRODUCT OF SRI LANKA.

OUR AWARDS

The background of the entire image is a collage of tropical elements. It features various green leaves, including large monstera leaves with characteristic holes and several palm fronds. In the lower portion, there are coconuts: one is cut open to show a white, jelly-like chia seed mixture, another shows the white coconut flesh, and a third is partially visible with its husk. Two small, light-yellow plumeria flowers are also scattered among the leaves and coconuts. The entire composition is set against a light-colored, vertically-plank wooden background.
