# CURRY POWDER

Curry powder is a blend of spice that come together to give a warm and robust flavor to whatever dish it is used in.

# GINGER POWDER

Ginger is a flowering plant whose rhizome, ginger root or ginger, is widely used as a spice and a folk medicine. It is an herbaceous perennial which grows annual pseudo stems about one-meter tall bearing narrow leaf blades.

## **TURMERIC POWDER**

Turmeric is routinely added to mustard blends and relishes. It also is used in place of saffron to provide color and flavor. Turmeric comes from the root of *Curcuma longa*, a leafy plant in the ginger family. The root, or rhizome, has a tough brown skin and bright orange flesh.
